## HEAD, ADVANCED COMPUTING AND MICROELECTRONICS UNIT, INDIAN STATISTICAL INSTITUTE

---

203, B.T.ROAD, KOLKATA – 700108,

5th July, 2020

Dear Head, Advanced Computing and Microelectronics Unit, Indian Statistical Institute,

As a longtime admirer of the impressive work being done by the team of ISI, I am delighted to submit my application for the assistant research project linked personnel opening posted on internet. As a recent graduate from the university of Calcutta with an M.Sc in computer science, I am confident that my knowledge in computer science and precise attention to detail would make me an asset to the team at ISI.

I understand that ISI is seeking to expand their services in advanced computing and microelectronics unit. While at the university of Calcutta, I participated in a competition and presented the paper on TRAVELLING SALESMAN PROBLEM covering the shortest path algorithms. The research assistant position at ISI is an exciting opportunity for me to use this educational background as well as learn more about the aforementioned theory.

I have attached my resume which further details my skills and education. I look forward to the opportunity to work with the team. Thank you for your time and consideration.

Sincerely,  
Anamika Guha
